KDB 784748 D02 covers the requirement for electronic labeling in section 4: Access and instructions to display regulatory information. This document describes the electronic label implementation in MWMII to display FCC ID.

Section 4.1 User Steps to Access Information

The menu tree for e-label is: main menu → Device Settings → FCC ID as demonstrated in the screen shots shown in figure 1 through 3.

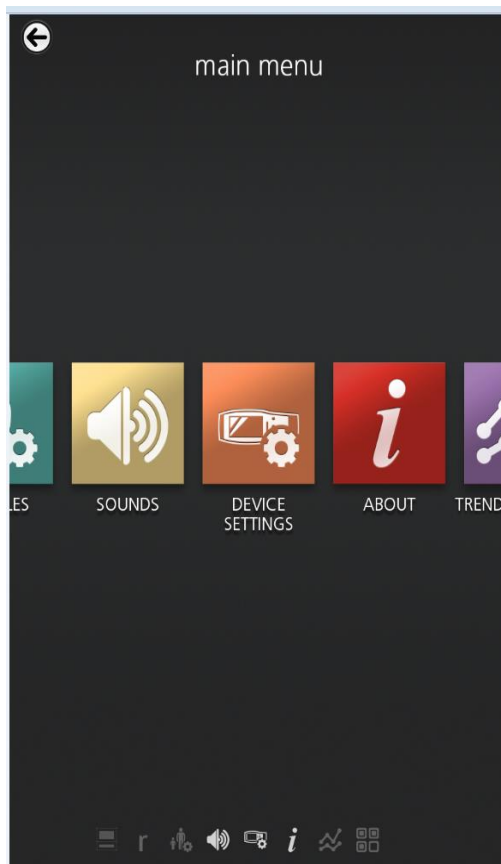

Figure 1

Figure 2

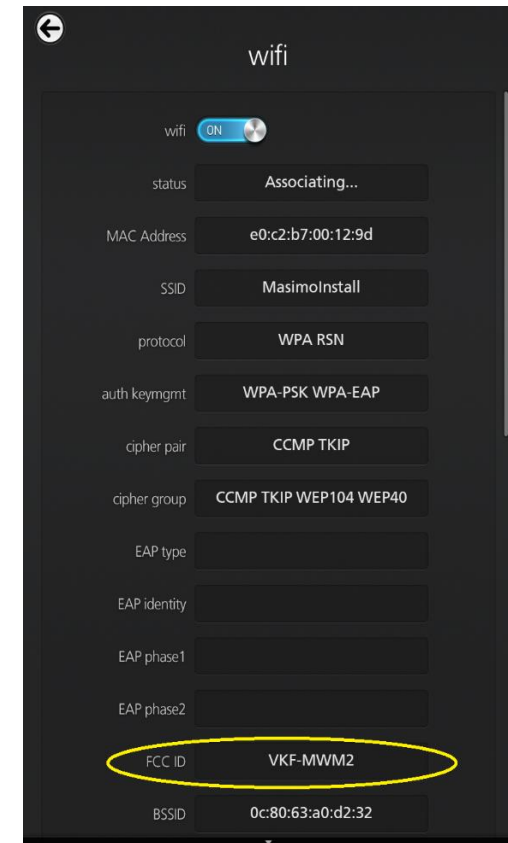

Figure 3

As shown in above screen shots, user will be able to access the regulatory information within three steps from main menu. Main menu is accessible when the device is on and does not require any special access codes or permissions.

Section 4.2 Products must not require special accessories or supplemental plug-ins (e.g., the installation of a SIM/USIM card) to access the information

MWMII does not have integrated electronic display and it operates only in conjunction with another associated product that will have an electronic display. FCC ID will be displayed electronically which will be accessible without special codes, accessories, or permission beyond the overall product access. Regulatory warnings will be provided in user's manual.

Section 4.3 Readability of Regulatory Information

The FCC ID displayed electronically in a manner such that it will be clearly legible without aid of magnification.

Section 4.4 Regulatory Information must be secure

FCC ID will be implemented in the section that is factory-set-unalterable. User's will not be able to alter it and hence cannot modify it. It is set at the factory location and scripts will ensure that it gets displayed correctly.

Section 4.5 Physical and Temporary label for Purchasing and Importation

A physical label with artwork as provided in figure 4 will be provided on the packaging.
